GERMAN NAVAL POWER CEASES TO EXIST; FLEET INTERNED

FRENCH TO GIVE PRESIDENT BIG DEMONSTRATION

Private Mansion In Paris to Be Occupied By His Suite

PARIS OFFICIALS TO HOLD RECEPTION ON ARRIVAL

Commemorative Medal Will Be Presented to Wilson At Ceremony

(ASSOCIATED PRESS TELEGRAM) Paris, Nov. 22.—President Wilson is expected to arrive in Paris about December 12, according to information here today. Plans are being made for the entertainment of the American president as well as the allied rulers who will visit Paris in November and December.

The visits will begin at the end of this month with the arrival of King George and Queen Mary of Great Britain. King Albert and Queen Elizabeth of Belgium will come on Dec. 5 to be followed by President Wilson.

Popular demonstrations will mark the visits of the president and the rulers of Great Britain and Belgium who also will be entertained at a series of fetes and official functions which will take the form of military and civic celebrations of the allied success in the war.

It is understood that President Wilson will occupy a private mansion in the residential section of the capital.

No plans for his entertainment had been announced except that he will be given a reception on his arrival by the municipal council. A commemorative medal will be presented to the president at the reception.

The arrival of the president is expected to be coincident with the resumption of the activities of the inter-allied conference. The peace congress then will begin to take definite form.

WHOLE POTSDAM FAMILY LEAVES

Amsterdam Hears That Hohenzollerns Will Quit German Soil for Unknown Destination.

(ASSOCIATED PRESS TELEGRAM) Amsterdam, Nov. 22.—All the members of the Hohenzollern dynasty will leave Germany in the near future, according to a Frankfurt dispatch to the Rotterdam Courant. Their destination, it adds, is not yet known.

So far as is known the only members of the Hohenzollerns, the former emperor and his eldest son, Crown Prince William, the former crown prince have already left Germany. Both are in Holland. There have been conflicting reports regarding the former German emperor who has been in poor health for some time, but the probabilities point to their not having left German territory.

The ex-emperor has five other sons and one daughter. A recent dispatch reported the abdication of the duke of Brunswick, his son-in-law.

The former emperor's only brother, Prince Henry of Prussia, fled from Kiel harbor at the time of the naval mutiny but is not known to have quit German soil. There are several male children among the former ruler's grand children.

PRAISES ITALY'S PART IN WORLD CONFLICT.

(ASSOCIATED PRESS TELEGRAM) Rome, Nov. 22.—The Italian Red Cross mission appointed to report on conditions in all countries where the American Red Cross is working left for the Balkan states today after weeks of investigation and study in Italy. The mission expects to be at Nazareth, Palestine on Christmas day. Lieutenant Colonel Homer Folk chairman of the mission, describing his stay in Italy, said:

"We are leaving Italy with an entirely new conception of Italy's participation in the great war and the magnitude of civilian problems and other difficulties that faced her. The measures of a country's military effort must be in some degree reflected by the result and effects upon civilization life."

"With her restoration of villages and farms, with half a million refugees scattered throughout the country, with her returning prisoners coming down from Austria through every mountain pass, with the marked increase in her tuberculosis death rates and the inevitable decline in the birth rate, with the many thousands of war orphans and with her extremely complicated food situation, it is not difficult to form an adequate estimate of Italy's part in the struggle against the invader."

LIFTS BAN ON STRAWS.
(ASSOCIATED PRESS TELEGRAM) Washington, Nov. 22.—New styles in men's straw hats, barred by conservation restrictions of the war industries board, will be permissible next season. The board today announced an order rescinding the restrictions, which would have limited styles in such hats for 1919 to a few standard shapes.

AMERICA FACES BIG PROBLEM IN SUPPLYING FOOD

Hoover Sends Message To Ohio Food Administration at Columbus

MUST FEED 200 MILLION HUNGRY EUROPEAN PEOPLE

Porks, Fats and Dairy Products Must be Conserved to Prevent Suffering

(ASSOCIATED PRESS TELEGRAM) Columbus, Nov. 22.—An appeal from Herbert Hoover, head of the United States food administration, was made by G. Harold Powell, representing Hoover, to upwards of 300 county representatives of the United States food administration, and members of the woman's committee, Ohio branch council of national defense, at a meeting by Fred C. Croxton, state food administrator, to receive a message from Hoover and to discuss plans for "conservation week for world relief," to be held December 1-8.

"America is just facing a new food problem," said Mr. Powell, who is connected with the food administration at Washington. "With the signing of the armistice, we are suddenly confronted with the question of helping to support 200,000,000 hungry European people. These include Belgium, Serbia, Poland, Greece, Portugal and the nations released from the yoke of Austria, with a population of nearly 75,000,000. They must be fed largely with imported foods. On account of the blockade the northern neutral zone with a population of 41,000,000 have been on low rations, and we must send them food enough to prevent the spread of anarchy and a breakdown of their governments."

"We must continue to send the 17,000,000 tons of food to our big allies with a population of 126,000,000, which the United States has promised to send. In northern Russia there are 40,000,000 starving people. The only people in Europe who will not have to depend upon imports to take them through the winter are Hungary and southern Russia."

"There are enough food supplies in the world except a group of fats, including pork, oils, and the dairy products, to prevent starvation of the people of Europe. Without a continued conservation in America the necessary food supplies cannot be assured. We need not worry about the food supplies of enemy countries. If the allies relax the blockade, America can provide the needs of her own people from her own resources and from sources other than our own."

BONFIRE IGNITES MUNITION TRAIN

Report 1500 to 2000 Dead In Disaster In Belgium—Say Children Started Fire.

(ASSOCIATED PRESS TELEGRAM) London, Nov. 22.—An explosion of munition trains at the station of Hamont, Belgium, Thursday caused casualties estimated to be between 1500 and 2000. One hundred died, according to a central news dispatch from Amsterdam. The injured are being taken to Eindhoven, Holland.

It is reported that the cause of the disaster was a bonfire built by children which spread to two German munition trains nearby. The destruction in the vicinity of the disaster was enormous, assistance is being sent to the stricken region from all directions. Dutch military aid has been sent across the border.

SENATE TO PROBE FOE PROPAGANDA

Washington, Nov. 22.—The senate committee investigating brewery propaganda decided today to take up on December 3 a general inquiry into German propaganda. This followed adjournment of the hearings today until after the beginning of the new session of congress on December 2.

27 GERMAN VESSELS INTERNED IN HOLLAND

(ASSOCIATED PRESS TELEGRAM) London, Nov. 22.—Twenty seven mine sweeping vessels passed out of German possession on Monday, according to a Central News dispatch from Amsterdam. They arrived in Dutch waters from Belgium and were interned.

GERMAN STATES ARE INVITED TO PARLEY

(ASSOCIATED PRESS TELEGRAM) Copenhagen, Nov. 22.—The government of the empire has telegraphed to the governments of the different German states inviting them to a conference in the chancellor's house at Berlin on November 26, says a Wolff bureau dispatch from Berlin today.

BACKING UP AMERICAN ARMY OF OCCUPATION

While the infantry of the American army of occupation has been advancing rapidly into German territory to hold it as a guarantee during the armistice period the U. S. artillery forces have been following to back up the boys if the need arises. The gun shown in the photo is one of the American railway artillery 16-inch type produced by the U. S. Ordnance Department. It is believed that guns of this type are being taken along by the artillery for use in emergency. The railway artillery in France is manned by the U. S. coast artillery. The ammunition for these monster weapons, which are mounted on steel cars, is carried in a car attached to the rear of the gun car.

FEARS RESULT IF EX-KAISER STAYS

Dutch Editors Exercised Over Possible Plot to Restore Wilhelm to the Throne.

(ASSOCIATED PRESS TELEGRAM) London, Nov. 22.—(British Wireless Service).—Some of the Dutch newspapers have been dealing of late with the presence in the Netherlands of William Hohenzollern, the former German emperor, and the former crown prince. The Telegraph and some of the other journals advocate the expulsion of the German personages.

Others of the newspapers take a more moderate view of the subject, while admitting that there is a prospect of Holland getting into difficulties over the question. The Nieuws Van Den Dag, of Amsterdam, a very moderate newspaper, publishes an article on the subject which reveals the uneasiness prevailing in various Dutch circles over the presence of the Hohenzollerns.

"For the present," it says, "perhaps there is no danger of a plot on our soil against Germany's new democracy the entourage of the ex-empire or the ex-crown prince, but who can say when the danger might not be realized if the guests do not depart speedily?" "History teaches that kings in exile like to seize a favorable opportunity to react their former roles. We desire to express our frank opinion that not we but the allied governments have the right to decide whether the residence on Dutch territory of individuals who are considered by them to personally threaten the peace of the world, have been fighting it dangerous to them or not. If the Dutch government has another opinion on the subject then it will have to bear the consequences, and the Dutch nation, if things come to a serious pass, will be involved in war or have to starve, forsooth, on behalf of the former German royalists."

ENGLAND DOUBTS BILL QUIT JOB

London Paper Declares Government Has Never Been Officially Notified of Abdication of Kaiser.

(ASSOCIATED PRESS TELEGRAM) London, Nov. 22.—The Daily Mail attributes to a "High official of the British government" the statement that "William Hohenzollern is still German emperor and King of Prussia as far as the British government is informed and apparently is awaiting for something to turn up."

"The Berlin government" the official added, according to the Daily Mail "has not made any communication to the allies or the United States notifying us of his abdication. We think it almost certain that if the abdication occurred notification would have been sent at least to the United States."

JOHN D. RYAN RESIGNS.
(ASSOCIATED PRESS TELEGRAM) Washington, Nov. 22.—The resignation of John D. Ryan as director of air production and as second assistant secretary of war was announced today by Secretary Baker. Mr. Ryan will return at once to his private business.

CHINA GIVES 12 TIMES QUOTA TO WAR FUND

(ASSOCIATED PRESS TELEGRAM) Peking, Wednesday, Nov. 23.—When John B. Mott, chairman of the American United War Work campaign, suggested that China's contribution to the fund should be \$100,000 gold, the Peking committee, the president of which is Dr. Paul Samuel Reisch, American ambassador to China, advised him that the sum which might be expected would be \$200,000, silver, which is almost double the chairman's estimate. Peking now has \$1,200,000 silver which is virtually twelve times the amount suggested by Dr. Mott.

WANT 6 BILLION FROM 1919 TAX

Senate Finance Committee Plans to Secure Ten Billions in Two Years.

(ASSOCIATED PRESS TELEGRAM) Washington, Nov. 22.—Revised plans for raising revenue in accordance with certain government peace time expenditures, as outlined by Chairman Simmons in a proposal submitted yesterday, were considered today by the senate finance committee. The plans provide for the raising in 1919 of \$6,000,000,000 and in 1920 of \$4,000,000,000 by taxation.

Members of the committee expect to reach a decision today on the plans as submitted by Chairman Simmons. Republican members at a preliminary discussion of the Simmons plan yesterday voiced vigorous opposition to the portion of the proposal relating to 1920 taxation. Should the Republicans oppose the 1920 plan to the extent of blocking passage of the revenue bill in the senate, Democrats, according to Chairman Simmons, will force incorporation in the bill of a straight 80 percent levy on war profits.

The Simmons plan, which it is said has been approved by Secretary McAdoo provides for retention in the taxation program for next year of the house rates on incomes and excess profits with the exception of the six percent differential on unincorporated corporation earnings, elimination of the 20 percent tax on luxuries and reduction of special taxes from rates contained in the house draft of the bill.

The war profits tax would be abolished in 1920 under the Simmons plan. The excess profits schedule reduced about one-third from the rate in the revised committee draft and the individual and corporation income tax rates lowered to eight percent.

VOTES TO DROP LAFOLLETT CASE

Senate Committee Would Not Push Complaint That Senator Made Disloyal Address.

(ASSOCIATED PRESS TELEGRAM) Washington, Nov. 22.—Investigation of the alleged disloyal speech of Senator LaFollette at St. Paul, more than a year ago was abandoned today by the senate elections committee on a vote of nine to two.

Committee members said that however much the speech of Senator LaFollette on which the proceedings were brought, might be deplored there was no basis for expulsion from the senate. Senator Pomeroy, of Ohio, chairman, and Senator Walsh of Montana both Democrats voted against dismissal of the charges.

A contest may develop in senate over action of a majority report, which will be submitted when the senate convenes December 2, by Senator Dillingham, of Vermont, Republican. Chairman Pomeroy announced that he would submit a minority report and might contest adoption by the senate of the dismissal recommendation.

WAR CONTRACTS HERE CANCELLED

Factories Are Readjusting Plants to Resume Work On Peace-Time Orders—Not Hard Hit.

A number of local plants which have been engaged in the manufacture of war material and various parts for assembling plants of the government have had such contracts cancelled and the managers and officials of such plants are so that they may again engage in the busy readjusting space and machinery work they were upon before taking war contracts. A number of the factories will now have additional room for more equipment and the placing of more men at work and in quite a few instances the cancellation of the orders will not affect the operation of the local factories and they will soon be running on the same scale, providing material can be secured and which the government has promised, as they were before engaging in essential work.

YANKEE GOVERNORS IN VICTORY JUBILEE

(ASSOCIATED PRESS TELEGRAM) Toronto, Nov. 22.—Governors Whitman of New York and Cox of Ohio are to take part in the great victory celebration here tonight for the allies, the empire club, guests of Sir John Henderson, Lord Governor of Ontario. The dominion government will be represented by N. I. Rowell, President of the council of the Borden administration.

EMBARGO IN CLEVELAND

(ASSOCIATED PRESS TELEGRAM) Cleveland, Nov. 22.—Cleveland stock yards today place an embargo on all live receipts effective until next Wednesday at mid night, owing to heavy receipts of hogs ramping the handling facilities. Twenty five thousand hogs were received here today of which more than 15,000 remain unsold.

HUNS GIVE UP 71 GREAT WARSHIPS

HEART OF MIGHTY FLEET OF GERMAN EMPIRE STEAMS BETWEEN TWENTY-MILE DOUBLE COLUMN OF ALLIED SHIPS

ALL PRECEDENTS OF NAVAL HISTORY ARE SHATTERED BY IMPOSING EVENT

Yankee Warships Take Part in Historical Event, Off Northern Coast of England—Foe Ships to Be Sent to Orkney Islands

(ASSOCIATED PRESS TELEGRAM) Edinburgh, Thursday, Nov. 21.—(8 p. m.)—Germany as a naval power ceased to exist today. The heart of her mighty fleet—14 ships of the line, seven light cruisers and 50 destroyers—surrendered to an armada of British, American and French vessels, the greatest fighting force that ever stood out to sea.

The minutely detailed program of submission laid down by the commander of the British fleet was carried out strictly according to plan. The German warships, strung out in a single column almost 20 miles long, appeared at the rendezvous at the appointed time and were led into the Firth of Forth between twin columns of allied ships which overlapped the Germans at each end. Tonight the enemy craft are anchored in the Firth, under guard as prisoners.

A surrender of such a gigantic scale has no precedent in naval history. Although the wonderful naval spectacle was the result of a peace-time review and evoked little enthusiasm, the vast meeting on the horizon, American and British officers could scarcely credit the evidence of their eyes. It was an event which shattered all naval traditions and ideals.

"HAUL DOWN GERMAN FLAG"

(ASSOCIATED PRESS TELEGRAM) Edinburgh, Thursday, Nov. 21.—Admiral Beatty's historic signal after the German fleet had been moored at the appointed place was: "The German flag is to be hauled down at 3:57, and it is not to be hoisted again without permission."

Men animated by the spirit of Launceston's "Don't give up the ship" and Nelson's "England expects every man to do his duty" could not conceive of such an inglorious fate as that to which the great enemy sea force was submitted. The Associated Press correspondent, standing on the deck of an American dreadnaught, heard an officer exclaim: "Even the poor old Spaniards, knowing they hadn't a chance came out of Santiago and were ready for the most part officers and men were silent. They realized they were witnessing the climax act of Germany's downfall. They knew that the surrender of these vessels automatically raised the United States to second position among the world's naval powers, but they showed no elation and seemed to feel a sort of contemptuous pity for the fallen giant of the sea who had refused to fight. Their imaginations dwelt on the foe's shame."

The German ships were sighted by the allied columns at 9:20 o'clock docilely following their British pilot, the light cruiser Cardiff, which, with destroyers and small craft, ranged ahead of the allied fleet. The enemy studiously complied with Admiral Beatty's orders and it was well for their own sakes they did. Every vessel steaming out to meet them flew battle ensigns and was ready for instant action with its men at battle stations and guns in position for the prompt annihilation of the enemy's forces if their mission proved other than peaceful.

Five German battleships, the New York, Texas, Arkansas, Wyoming, and Florida, were prepared to fire every gun in 40 seconds after the signal was given by Rear Admiral Rodman, who said in the correspondence before sailing: "There is not the slightest probability of any trouble, but we are overlooking no chances against making the wind up of this show a big success."

The main allied fleet extending over a line of miles from the Firth of Forth, began to weigh anchor at 1 o'clock this morning. The Scotch mist which for days had obscured the harbor, was swept away by a stiff breeze, and the moon shone brilliantly on a clear sky. The ships quickly took their stations in the long double line they held throughout the day. British battle cruisers led the way, followed by dreadnaughts. Admiral Beatty's flag ship, the Queen Elizabeth, led the square on in the northern column. The American warships fell into line behind Admiral Beatty's craft, balancing a British squadron similar in power in the opposite file.

The rendezvous was approximately 50 miles distant and the ships gauged their speed to arrive at the appointed place at 8 o'clock. At 5 o'clock a signal summoned the men into battle stations and, except for the officers on the bridges, the ship's companies were hidden behind bulkheads of steel.

When dawn broke, the sea was again covered with mist, which reduced the visibility to less than 500 yards. The strains through the murky haze finally were rewarded. Off the starboard bow the Cardiff, trailing an observation balloon, came steaming in. Close behind her came the first of the German ships, the great battle cruiser Seydlitz, which was flying the flag of Commodore Togo. After her came four others of the same type. The Derfflinger, Von Dornier, Hindenburg, and Moltke. They moved along three cable lengths apart, in the five miles of the sea, and were followed by the rest of the fleet.

Immediately following them were nine dreadnaughts, the Friedrich Derfflinger, the Koenig Albert, Kaiser, Kronprinz Wilhelm, Kaiserin, and the rest of the fleet. The German ships were seen to be in a single column almost 20 miles long, appeared at the rendezvous at the appointed time and were led into the Firth of Forth between twin columns of allied ships which overlapped the Germans at each end. Tonight the enemy craft are anchored in the Firth, under guard as prisoners.

CASTELNAU MAY BE ELEVATED TO MARSHAL

(ASSOCIATED PRESS TELEGRAM) Paris, Nov. 22.—(Havas).—General Edouard de Castelnau, who will enter Strasbourg Sunday with the French army, according to the Echo de Paris probably will at that time assume a "new dignity."

Paris newspapers reported earlier in the week that three new marshals of France probably would be appointed soon and that one general would be promoted when Strasbourg was entered. Apparently one of the generals to be elevated will be General de Castelnau. He was chief of the French general staff under Marshal Joffre and later was commander of the French armies in France and Belgium.

WILL HEAD CAMPAIGN FOR RED CROSS ROLL

(ASSOCIATED PRESS TELEGRAM) Cleveland, Nov. 22.—W. W. Wheeler of Cleveland, has been chosen to direct in Ohio, Indiana and Kentucky the Christmas roll-call for universal membership in the American Red Cross. The roll-call will be held from December 16 to 23 inclusive and aims to enroll 16 to 23 inclusive and aims to enroll every community as Red Cross members.

Mr. Wheeler, who is vice president of a local manufacturing company, and who is serving the Red Cross without compensation, has chosen the following as his state managers: Ohio, H. H. Middle of Cleveland, Indiana, Clarence Kaiser, Kronprinz Wilhelm, Kaiserin, and the rest of the fleet. The German ships were seen to be in a single column almost 20 miles long, appeared at the rendezvous at the appointed time and were led into the Firth of Forth between twin columns of allied ships which overlapped the Germans at each end. Tonight the enemy craft are anchored in the Firth, under guard as prisoners.

FOOD PRODUCTION MUST NOT HALT

Licking County Farmers Told of Need For Food Abroad

Meeting, Is Attended By Representatives From Sixteen Townships

That the production of food must go on, that the same standard of production for the acreage must continue as during the war, are the important things the farmer must know now and his co-operation is being sought. The government desires to acquaint the farmer with the fact that it is still up to America to send tons of food to the foreign countries, and this can only be done through the aid of the farmer.

To enlarge the scope of this co-operation the farm bureau of the Chamber of Commerce will launch a membership campaign on Monday, the preliminary plans for which were made a big meeting held Thursday evening at the bureau.

Sixteen townships were represented, and several addresses pertinent to the campaign, method of proceeding, and the general work were made. Licking county's quota in the campaign is 1000, which means doubling the present membership of 500.

At last night's meeting, Clark S. Wheeler, extension director of Ohio State university, was the principal speaker, and he was followed by J. S. Herzog, T. J. Appleyard, Jr., and L. L. Mow, secretary of the far bureau.

According to the plans outlined teams will start out Monday to solicit memberships and every farmer in the county will be visited. Each township is organized under a captain and district workers, and the work will be conducted through school districts.

Buttons and tags designating membership will be distributed, the latter to be placed on the fences or gates of the farm, telling of the membership. The work will finish Saturday, November 30, at 1 o'clock, when a big meeting will be held at Taylor hall to take cognizance of the results. This meeting will be addressed by Judge Wanamaker, of the Ohio supreme court. His will be the principal address, but a short program will also be given.

EAT HOME PRODUCTS THANKS-GIVING DAY.

Every dish served in American hotels, restaurants, clubs and other public eating places on Thanksgiving day should be made from home grown products.

This will be a district measure food conservation, which is more necessary than ever, and should demonstrate to the public how food and transportation may be saved by using only local products.

We now will have the ships to carry food over there to those who need it, and we must still keep up conservation so that we can fill them.

Thanksgiving day should still be a day of saving rather than a day of unusual feasting.

Thanksgiving can be expressed in word and action without over eating. —Ohio Defense Council.

WILSON SIGNS BONE-DRY BILL

Measure Prohibits Sale of Intoxicants After June 30 During Demobilization of Army.

Washington, Nov. 22.—President Wilson, at one minute to 5 o'clock yesterday afternoon, signed the bone-dry prohibition measure and thus made it a law.

After next June 30 no intoxicating liquors of any kind may be sold in this country for beverage purpose except for export until such time as the President, by proclamation declares demobilization completed. The amendment also prohibits the importation of any intoxicating beverages into this country from the time the bill is approved by the President until the demobilization of the army is completed.

Unless the presidential proclamation under the food control act is rescinded the prohibition amendment will affect only the manufacture of wine, for the brewing of beer must cease December 1 under the President's proclamation.

Wine Making To Stop. The manufacture of whisky was stopped soon after the nation entered the war. Under the amendment the manufacture of wine will cease next May 1, and should the law of beer be allowed to continue after December 1 it also would stop May 1 under the new law.

Prohibition leaders say the law insures permanent prohibition for the nation because the process of demobilization may take two years and by that time the prohibition amendment will be ratified.

AVOIDING LABOR TROUBLES

Many people, not without reason, are much worried over the labor situation. They fear the spread in this country of the Bolshevik notions that have ruined Russia. In the readjustment of wages that must come, they look for strikes with violence, class warfare, and perhaps bloodshed.

Class warfare results from two causes, ignorance in a large mass of people, and selfishness in the rich. When you get these two forces operating together, you create an explosive capable of more destruction than any.

Russia blew up because it had a great mass of dense ignorance. We have some such elements in this country, principally unassimilated aliens. To remove ignorance, our people must be willing to spend money very freely for schools, and must insist that children go to school until they really know something. Education is a great safeguard against industrial disorder, since it gives people a chance to become efficient producers. Thus it amply pays for its cost in the security it gives to the country and social structure.

The other peril, avaricious and unscrupulous wealth, is not usually reached by school education. We must appeal direct to the people of wealth to take a generous and sympathetic view of life. A great many of them do so already. Others are still indifferent to everything but their own luxury. They buy labor as a mere commodity, regardless of the welfare of human beings.

Our social system is not safe until the employer who is acquiring wealth shall feel his responsibility for the welfare of those who depend on him. He must get closer to them, consult more with them, try to provide decent living conditions so far as possible, and give up the grasping of superfluous money as his first object in life.

DOES THE MELTING POT MELT?

After the war we must find some better means for Americanizing aliens. The time has gone by when it is desirable to have great colonies of non-English speaking people, reading newspapers in a foreign tongue, and gaining no conception of what American life means.

Our people have always wanted these foreign colonies Americanized, but were never willing to pay the bills. A thorough system of night schools would do a lot toward it, but money for this purpose comes heard from the tax payers.

For every thousand dollars we spend to educate our children, we put out but one to educate the alien. Yet his vote counts just as much as our child's. If we are forced to go to war, we need his whole hearted support. Not merely must we provide such instruction, but the alien who expects to get the advantage of our country must be willing to fit himself to live in it.

Ex Kaiser Bill proved that he didn't fear the popular anger, by leaving his wife to deal with the mob.

ECONOMIC EFFECT OF WOMEN'S WORK.

Many people used to say that when women went into industry, it threw an equivalent number of men out of employment. They therefore argued that the women made no addition to the productive power of the community. They thought the result merely permitted employers to hire the female labor for less money.

Yet the past twenty years has seen an enormous number of women enter employment previously closed to them. And even before the war, it was not apparent that any greater number of men were idle than previously. It must therefore be possible to take a great number of additional women workers into our industrial system without serious disturbance. And if so, the production of the community is thereby increased, and more money is put into circulation. Thus the prosperity of everyone is advanced.

It therefore should be possible to find work for all the women who have taken the places of soldiers, but who naturally expect to give up their jobs when the boys come back.

Many of the returning soldiers who previous to the war were doing work of a very routine character, would do better to let the girls keep on with the job. Then if the soldier would fit himself for work calling for a higher skill, the community will gain by his added ability as a producer. Or if the soldier wants his job back just as he had it, let the girl fit herself for some work demanding more technical ability and thereby gain the advance.

There is always a chance for skilled workers. If women crowd into clerical work and other employments of a routine nature, let the men who formerly did that kind of work fit themselves for something better. In that way the influx of working women into the industrial fabric can be handled without creating unemployment.

RETURNING TO PEACE.

(Philadelphia Record.)
A fortnight ago, before Germany signed the armistice, orders for \$7,000,000 of barbed wire were held up or canceled. That amount of steel is available for commercial uses. Orders for shell steel have stopped, or will stop presently, releasing further material for commercial uses. Building operations have been stopped for a couple of years by high wages and materials, and finally by the direct inhibition of the Government. They will presently be free to make their contracts for next spring's operations, and the steel that is not needed for war will find plenty of demand for peace.

A couple of days ago it was announced that at one plant of the du Pont Powder company the number of persons employed will be reduced from 14,000 now to 2,500 by the end of the year. At the same time the non-essential industries will be rapidly released from their restrictions, and will absorb this labor as fast as it is set free.

Our army in Europe could not be returned in less than seven or eight months, but all of it will not be returned at any such rate; a part will remain in Europe for a year or two. We have also 1,700,000 men under arms in our cantonments. It will take three months, perhaps, to muster them out. Altogether we have under arms not quite 4 per cent of our population. We have abroad 2 per cent. For every 100 of our population we have nearly four soldiers to be added but the process will take a year or two. At the same time the great diversion of peace industries to war will be reversed, and there is no reason why it should not be reversed rapidly, absorbing the labor and materials no longer needed by war. There is no reason why the process should not work automatically as fast as the government musters out the soldiers and the present war contracts are completed or canceled upon a basis that will avert loss to the contractors.

The process is not nearly so complicated and difficult as it is the fashion to represent it. The army in 1865 was 5 per cent of the civil population, but as fast as it was mustered out it was absorbed into the civil population with hardly a ripple of disturbance. This was facilitated by the enormous public domain that was opened to the former soldiers; but while the public domain is much less now than it was 53 years ago, the industrial establishments in the nation are enormously greater.

Of course the boards that have been regulating our down-sitting and our uprisings, our food and clothes and fuel and lighting and laundry, for the past year and half do not see how the country can possibly get along without them. They feel that we ought to have the beneaction of their control over our personal habits and our private business for several years. But they have overestimated our need of them, now that the war is over. The country can return to peace conditions much more smoothly and quickly than some of these innumerable boards suppose.

AMERICANS ACCOMPLISH.

(Indianapolis News.)
The nation should thrill with pride at the more detailed story of the vital part taken by American troops forcing the Germans to sue for peace. Much of the mystery that surrounded events leading up to the cessation of hostilities has been dispelled. There is no reason now why the American troops should not have full credit for what they did and what credit is being freely given, both at home and abroad. A part of the glory falls to Indiana, for many of her men were in the Rainbow, First, Second and other divisions that have been in all the fighting.

Historic dispatches say, may call the final operation the battle of the Meuse or the battle of the Argonne. Another suggestion is that it be known as the battle of Sedan. Perhaps in America this long and costly engagement may be known as the battle of the Wilderness. In the Civil war there was a Wilderness battle that meant much to the contending forces, but the wilderness through which the federal troops pressed in the rebellion was a well ordered park when compared with what the Americans faced as they made their way toward the German lines. Swamps, tangled growths, heavy forests, deep ravines, difficult trails—everything that could help the Germans from a topographical standpoint was there. The Germans knew the ground and registered their batteries on it. The Americans knew it not, yet they were there

to learn and to press on regardless of the way or the cost. That they did press on is now known to all. Stubbornly and with no thought of giving an inch, they hammered steadily away. Fresh troops were sent to the Kaiser, but to no avail. Finally the German lines broke and the German heart broke with them. Then it was that Hunland asked for mercy. There was nothing else left to do. It is well that many of these soldiers who fought so valiantly in this battle have been chosen for the army of occupation. Before long they should be permitted to march through the streets of Berlin. They will not go there as the Germans would have come through conquered territory—killing babies, poisoning wells and following all the other German list of crimes. If they march through the streets of Berlin, they will show by their bearing and conduct the truth of the great American assertion that he who wears the uniform of this country is both a soldier and a gentleman.

GERMANY MUST TAKE ITS MEDICINE.

(Pittsburg Gazette Times.)
Dr. Solz is putting a strike on playing a game. Assume that he is scared. If his German mind were functioning in the orderly fashion to which it was trained he would recognize the futility of appealing for a modification of justice terms with a representation that if they are insisted on as written by the Allies and accepted by Germany Bolshevism will sweep over the late empire of the Hohenzollerns. But never the basis of Solz's frantic plea there should be no change of terms, and we believe there will be none. The main purpose of the victor's armistice conditions was to crush utterly, so that it could not rise again Prussian militarism. We have the system down and manacled; it would be foolish to release even one of its fingers. Bolshevism is a terrible scourge, but not as bad as Hohenzollernism. We hope Germany will not be ravished by the fantasies as Russia has been, but it were better that she be than that we take any chance with that militarism which has been overcome. In the end the Allied armies will deal with Bolshevism, if it appears in Germany, with effectual rigor.

If the German government is properly solicitous of the welfare of the people of that country, it will fight Bolshevism with the truth. It is the design of the conquerors of the Hun to supply them with food, so far as that can be done without depriving more worthy peoples of the means of existence. That was the first step by Dr. Solz toward making peace. His armistice appears less crushing than he regards them. It is essential, moreover, to the restoring of any faith in the Germans. It is useless for them to attempt any game devised to gain advantage that has been won from them in the field. Germany must take its medicine, however bitter it be.

THEIR OWN MEDICINE.

(Collier's Weekly.)
The apostles of culture have explained quite often enough that Prussianism was bound to conquer because its policies were fundamentally best for the world at large. Our own federal and other sills are now entertaining a number of more or less plausible expounders of this doctrine. Why not apply their own theories to the job of making peace with them? Those of us who have memories of school books and paper files will have no trouble compiling lists of Potsdam principles even longer than this from the New York Evening Sun:

"Our statesmen must in the peace negotiations be men of iron and not resemble soft wood painted iron gray. The German people mean not only to hold out but to conquer."—Count von Reventlow.
"An indemnity which would be adequate simply to cover the cost of the war would perhaps amount to thirty billions—two billions in gold, a further four or six billions in exchange, the rest in securities."—Petition of German intellectuals to the Government.
"Peace must assure permanently the military, economic, financial, and political interests of Germany in their widest range, including extensions of territory."—Dr. Spahn, leader of Reichstag Center.

"If we win, we must utterly destroy the power of England; we must take her colonies and her fleet. We might take the French fleet, too, and make France bear the cost of the war. Prussia could be joined to Germany."—Dr. Oppenheimer.

"The security of the empire in a future war requires her ownership of all mines of iron ore and to defend them the fortresses of Longwy and Verdun."—Manifesto to the Chancellor.
"It is necessary to impose a merciless high war indemnity on France, and not forget her large colonial possessions."—Petition of German intellectuals to the Government.

That was Germany's own pet gospel of international peace and good will as published only six months or so before she began winning an armistice. What's the matter with it now?

STRUGGLE AGAINST FAMINE.

(Springfield Republican.)
The world is now face to face with a supreme struggle against famine. Mr. Hoover underestimates the gravity of the food situation rather than overstates it. America can be of incalculable service to humanity during the coming year by practicing self-denial and exporting its surplus of food to the people of Europe. Our task in feeding our friends now includes that of feeding those who were our enemies.

Even the most embittered enemy of Germany realizes that anarchy in the demands of the central empires would be a world catastrophe. Nothing can promote anarchy like famine. No orderly settlement of the war issues on the lines forecast by the victors can be admitted if responsible governments with which it is possible to treat and place under international obligations do not survive the shock of the sudden breakdown of the old imperial regime.

This is instantly demonstrated by so stout and implacable an enemy of German imperialism as Premier Clemenceau, who promises on behalf of the French people, none too well fed themselves, the utmost possible assistance in food supplies for the population of central and eastern Europe. It is no strained interpretation of the situation to say that the spread of bolshevism from Russia as far west even as the Rhine may depend upon success in feeding the German people the coming winter.

Anarchy knows no national bound aries and patriotism cannot be nourished on an empty stomach. If the western democracies wish to witness the annihilation of German and Russian socialism into an empire of the proletariat under the leadership of fanatics and terrorists, they will leave the inhabitants of those countries a prey to the pangs of hunger. It is fortunate, indeed, that Premiers Clemenceau and Lloyd George and President Wilson agree as to the extreme urgency of giving relief at the earliest possible moment.

Any survey of the world's available food supply must show how near the dead line of starvation the lowest-down populations of the war-swept countries

If any man think it a small matter, or of mean concernment, to bridle his tongue, he is much mistaken for it is a point to be silent when occasion requires and better than to speak, though never so well.—Plutarch.

All Clamoring for It.
We are full of apprehensions, and we often quite lose hope.
But that good will win is plainly to be seen.
For instance, go to Woodworth's and watch people buying soap.
And see how many hanker to be clean.

Politics Evidently Can't Be Adjourned.
Aunt Caline says: "Tother day I was in to Hadda Payne's which she's run porly threw renchun' her back, an' whilst I was there a Mr. Loud Talker which he is our preacher he come in asking fer some denominations fer the Red Cross to carry on its work. But Got, which is Hadda's husband, he was righly about it an' he wouldn't co'ff up a scent. Mr. Talker he says, 'But Brother Payne we must raze this, hee money' he says, 'Fer we hev to hev funs to take keer of the brave soldiers what have world safe fer democrae' he says. 'Yes, there it is,' says Got, offle sarcastic, 'safe fer democrae' he says. 'That will make it all rite fer you,' he says, 'but how about me?' he says, 'offle fierce, 'fer you no dang well I've allers been a republican' he says.

Will Probably Pretend to Be Decent.
Since nothing succeeds like success we suppose the pro-Germans in this country are not quite so pro as they were.

Did You Know?
That water-glass consists of the soluble silicates of potash, soda, or a mixture of both? It is usually prepared by boiling silica with caustic alkali under pressure, about 60 pounds to the square inch. When pure and solid it has the appearance of common glass and is only soluble in boiling water.

THE BOLSHEVIKI!

Must We Fight Another War TO Save the World From Its Menace?

A shudder runs through the Western nations as they watch the millions of Central Europe plunge from autocracy toward anarchy, and publicists begin to ask if we must fight again—against the new foe.

"Must we save the world from anarchy" is on every lip and the fact that such questions as these are being asked everywhere is proof enough that "the war does not end when the enemy surrenders" according to *The New Republic*. On the other hand, we find the *Hartford Courant* convinced that the scientific socialism of Germany can never develop the disorder that was bound to accompany the Bolshevism inherited from the old Russian nihilism. And the *Boston Globe* reminds us that "whereas Russia was predominately illiterate, in Germany illiteracy is less than one per cent."

The leading article in THE LITERARY DIGEST this week deals with the greatest menace that threatens the conclusion of world peace—the Bolsheviki. Other news-features in this particularly interesting number of "The Digest" are:

How "The Digest" Will Serve You in the Future

Just as THE LITERARY DIGEST has provided during the long years of war that have just ended the most authoritative and dependable of news articles from week to week, so now, in the wonderful period of reconstruction that lies before us, it will furnish the vital news upon all the great questions of the day in a similarly interesting and comprehensive way. It will cover fully the movements of our troops in Europe, the return of our armies to their native land, the arrangements for disbanding the various

units and restoring their members to civil life, the great readjustments that will become necessary in the worlds of finance, commerce, and industry, the rehabilitation of the wounded and crippled, the means by which they may be made self-supporting, etc. All these and many more allied topics in the social, political, and economic fields, will be treated without bias and with the simple aim of presenting the facts for your consideration and judgment. Study them each week in The Digest.

No word has been received from Jack Hughes since he sailed about two months ago. We hope soon, now to get word from him. He has probably written but the mail seems slow getting here.

W. S. S. TO SUPPORT VICTORS

Government Needs Money to Continue Maintenance of Soldiers.

Columbus, O.—(Special.)—Through the Ohio War Savings Committee, the government is impressing on the people of this state that its soldiers and sailors must be supported as generously in victory as they were in battle.

Military authorities are agreed that it will take upwards of a year or more to muster out our armies. In the meantime, the "rear supports"—those at home—must continue to buy U. S. securities. Money must be invested in War Savings Stamps to provide the government with funds necessary to furnish clothing, subsistence and the educational advantages it intends to give the fighting men.

War Savings Committees in every county of the state will continue their activities. Intensified drives will be conducted in those counties not up to the apportionment given by the Treasury Department. In Ohio every effort will be made to furnish the government with the funds needed to maintain the Buckeye boys in the military.

"People of this state must not forget their obligation to these men," the Ohio War Savings Committee has bulletined its county chairmen.

"TOMORROW WILL BE OPENING DAY OF ANOTHER FAMOUS SHOE STORE"

\$3.50 to \$6.00

Tomorrow morning we shall present to the public a value in shoes so much greater than you ever have known at \$3.50 to \$6.00 that to tell the simple truth about it may sound like an exaggeration.

The simple truth is that nearly four million men, women and boys in the United States wear THE NEWARK SHOE—rather a smashing tribute to the public's judgment. And when you see THE NEWARK SHOE in nearly 300 styles in which it is made; when you examine a pair and see its excellent workmanship and finish—you will say that it has EARNED its great success and DESERVES the nation-wide sale which it enjoys.

If every man and woman in NEWARK realizes what magnificent styles await them here tomorrow at \$3.50 to \$6.00—you will have your troubles to get inside of our store to buy a pair.

On every pair of these superlatively smart NEWARK SHOES you save "ONE DOLLAR AND FIFTY CENTS AND MORE." And this is brought about by the great MANUFACTURING and vast and scientific SELLING organization in back of this nationally famous shoe.

Come to our opening tomorrow:

Enjoy the lavish display of new Fall models we have prepared—and you will come away satisfied that NEWARK may well be proud of its new-comer.

Remember each visitor or customer will receive a fine useful souvenir.

What Determines Meat and Live-Stock Prices?

Some stock men still think that Swift & Company—and other big packers—can pay as little for live-stock as they wish.

Some consumers are still led to believe that the packers can charge as much for dressed meat as they wish.

This is not true. These prices are fixed by a law of human nature as old as human nature itself—the law of supply and demand.

When more people want meat than there is meat to be had, the scramble along the line to get it for them sends prices up. When there is more meat than there are people who want it, the scramble all along the line to get rid of it within a few days, while it is still fresh, sends prices down.

When prices of meat go up, Swift & Company not only can pay the producer more, but has to pay him more, or some other packer will.

Similarly, when prices recede all down the line Swift & Company cannot continue to pay the producer the same prices as before, and still remain in the packing business.

All the packer can do is to keep the expense of turning stock into meat at a minimum, so that the consumer can get as much as possible for his money, and the producer as much as possible for his live-stock.

Thanks to its splendid plants, modern methods, branch houses, car routes, fleet of refrigerator cars, experience and organization, Swift & Company is able to pay for live cattle 90 per cent of what it receives for beef and by-products, and to cover expense of production and distribution, as well as its profit (a small fraction of a cent per pound), out of the other 10 per cent.

CATTLE FINISHING A PROFITABLE AND MUCH-NEEDED INDUSTRY

Plenty of Good Grazing on Alberta Prairies

The Last Great West

ing of cattle has had an important part in the programs of a few farmers. Their success has incited others to take up this phase of cattle industry and the number of young cattle purchased by farmers at the Winnipeg Union Stock Yards in 1917 was nearly four times that bought in 1915. The following instance will explain the increasing demand for cattle to finish.

In March last, a Manitoba farmer purchased 25 head of cattle weighing on an average of 1,040 lbs. at \$10.10 per cwt. Six months later these steers went over the scales at an average of 1,442½ lbs. and fetched \$14.60 per cwt. These animals had received no special care. When taken to the farm they were allowed to eat from the straw stacks until they could be turned onto grass. They were practically grass-fed steers. The gross profit was \$105.56 per head. Total expenses, including commissions, freight, care and feed, was less than \$10 per head, so that the net profit was almost 100%. This is not unusual; other farmers have done even better.

He who makes two blades of grass to grow where but one has grown before, is a benefactor to mankind. So, too, is the man who purchases under-developed cattle and brings them to maturity on pasture that would otherwise go to waste. This is what farmers in Western Canada are doing. Their reward is threefold; they earn the gratitude of millions, a sense of satisfaction from patriotic duty well done and a nice financial profit.

Farmers who went in for cattle business yesterday are reaping large profits today; those who are engaged in this industry today will be tomorrow's winners. The enormous demands of the past four years have depleted Europe and drained this continent. War's end will not end this demand. New herds must be built up and this will consume years. The high prices now being paid for cattle are bound to be maintained and far-sighted men are buying new stocks with the intention of holding them.

In no other country can this industry be fostered to better advantage than in Western Canada. There may be found vast areas of pasture lands practically unused. There the most nutritious fodder crops can be grown cheaply and in quantities sufficient to support many times the number of cattle now supported. For a number of years the finish-

THE TIDE OF DISASTER

Keynote Comedy—"POOR FISH"

AMUSEMENTS

AUDITORIUM

Large crowds have attended the Auditorium theatre the past several days and the attraction that has attracted them is Bill Hart noted Artcraft star, who is seen in "The Silent Man." In this he plays "Budd Marr," a miner who has prospected the Arizona desert for years. He finally makes a rich strike and comes into the town of Lakeover to enter his claim at the government land office. His appearance at a dance hall and gambling resort that night is reported by "Handsome

comedy situations including suspense, intrigue and romance. It boasts of more puletrude to every square foot of stage floor space than any show presented in New York in years. Fred de Gresac's plot has to do with Flo-Flo, the shapely corset model; Angela Stokes, who loves a boy from Oak-kosh, though she is being tricked into marriage with a bogus Spanish count; the ubiquitous proprietors of the exclusive Bride Shop, Mosher and Simpson; and the acrobatic "Finly" and Aloysius, who imbue the piece with a Sherlock Holmes atmosphere. Silvio

his local boys. No doubt this attraction will pack the house, as it is a decided novelty. A Hawaiian dance will also take place as a special added attraction. All this will take place together with the regular bill of Mary Brown's Tropical Maids, who will offer a complete change of program today, presenting a new bill, entitled "The Short End," a roaring comedy, with chorus numbers and specialties throughout.

GEM.
Tonight.
What would smiles be without tears? Joy is heightened by sorrow. Don't get the idea that "The City of Tears," which will present Carmel Meyers in another of her Bluebird successes at the Gem theatre tonight is a weepy,

Scene from John Cort's famous fashion show FLO-FLO the magnificent musical comedy success which delighted smart New York all last season at the Cort Theatre, coming to the Auditorium Theatre, Matinee and Night, Sat. Nov. 23.

Jack" Presly, who mentions the fact that Marr has some unusually rich ore, and he has promised to secure and alter the record of the location of the claim. When Marr recovers from his gambling spree and returns to his claim, he finds Presly and his men at work, who tell him his claim is in another direction. In the meanwhile Presly has proposed to Betty Bryce, a young Virginia girl, who is in Arizona on account of her brother's health. He holds out alluring promises to her, if she will marry him, but keeps from her the fact that Topaz, one of the inmates of the dance hall, is already his wife. From here on the story is most interesting and you must see it to appreciate it—the last showings are seen today.

For Sunday in connection with "Pershing's Crusaders" Mr. Fenberg has booked a return. Fatty Arbuckle comedy. This together with the big community sing will make the Auditorium theatre the amusement resort you will want to visit on Sunday.

Yesterday's Seat Sale. The advance sale of seats for "Flo-Flo," the musical comedy hit which remained at the Cort Theatre, New York, all last season and which comes to the Auditorium theatre here on next Saturday afternoon and evening, opening at the box office of the theatre yesterday, and the demand for seats for this brilliant offering points to the full house that it merits.

John Cort's newest show has a de luxe cast, lyrics that won't be forgotten, gilly lines, interesting situations, magnificent scenery, exquisite boasts, beautiful girls, a chorus which boasts that each of its members is a perfect thirty six and a team of eccentric dancers that is rivaled by none in the country.

"Flo-Flo" runs the entire scale of

Hein's score comprises twenty tuneful numbers. Mr. Fenberg makes a special announcement, stating that the Flo-Flo performance tomorrow evening will not start until 8:45 p. m. The stores are open until 8:30 p. m. and owing to the many requests of the merchants that he hold the starting off until that hour, he is going to go so and if it works out well this time, he may continue to star all attractions playing here Saturday evening a little later than usually.

Pershing's Crusaders. That America will soon be so well supplied with its own ordinance that it will not have to rely upon being supplied by the French Government, it is clearly shown in "Pershing's Crusaders," the U. S. Official War Film coming to the Auditorium Sunday. Tremendous guns as well as field pieces are being manufactured in large numbers and with great rapidity. The films take you through the plants and show in detail how the big guns are made and trains loaded with field guns are shown on the way to the seaboard, where they will be loaded on ships and transported to the war zone for the use of Pershing's artillerymen. "Thousands of shells of all sizes are shown in the course of manufacture, and even now America is providing its full share of shells for the big guns and field pieces. These also are shown in long trainloads on the way east for shipment.

Fatty Arbuckle is an added feature.

LYRIC.

Diving Contest this Evening. A big diving contest will take place at the Lyric theatre tonight in a big filled tank on the stage. Mr. Green, one of the members of the company, is an expert diver and will take part in the contest together with five or

sorrowful or dismal picture. It is far from it. It is one of the most joyous and enjoyable pictures that this theatre has ever shown. You can't afford to miss it.

ALHAMBRA.

Theda Bara, the greatest feminine star of the screen, has achieved a new and tremendous triumph. "When a Woman Sins," her latest play, is one of the most powerful, gripping and sensational dramas that has ever been thrown on the screen.

Telling the story of a passionate, beautiful girl, who gives rein to the impulses of pleasure that surge through her heart, "When a Woman Sins" will reach right down into the souls of every woman who sees it. It is big, and it is bound to create a tremendous sensation.

"When a Woman Sins" lays bare the soul of a beautiful woman and shows her struggling with her heart-aches, her ambitions and her final triumph. Not only that, but this great photodrama is a scorching condemnation of a people's wrongs.

The heroine of "When a Woman Sins" is Lily Marchand, a trained nurse, who, when she is unjustly accused, becomes Poppea, a woman of pleasure.

Poppea falls in love with Michael, a young divinity student, and through all the tures of her lovely body, seeks to make him her creature. But he turns her back on her in scorn, denounces her and her ways of life and goes down into the slums to minister to the poor. She follows him, but again he rejects her righteous indignation at her scornful sins.

TO AVOID AND RELIEVE INFLUENZA

BY DR. FRANKLIN DUANE. Many people have been frightened by what they have read or heard of influenza. The more you fear the disease, the surer you are to get it. Go right about your business and forget it. As the disease is spread principally by contact through sneezing, coughing or spitting, many health authorities have advised that everyone wear a gauze, which is daily washed and saturated with a one to five hundred solution of zinc sulphate in water, and then dried before wearing over the nose and mouth. You should avoid crowds, common drinking cups and public towels. Keep your strength up by taking lots of exercise in the open air and plenty of nourishing food.

If you have any of such symptoms as chilliness, nasal obstructions, flushed face, headache, restlessness, weakness, or irritating cough, give up work at once and go to bed. This will save your strength to help overcome the disease. Put your feet in hot water for fifteen minutes. Thoroughly loosen the bowels with some such mild and non-irritating physic as Dr. Pierce's Pleasant Pellets. Drink principally of hot water and then cover up with plenty of clothes in bed so as to get a good sweat. When sweating is free and the fever reduced take a dose of two Anuric Tablets every four hours, followed by drinking at least a glass of hot water. Anuric Tablets help quickly to relieve the soreness of the muscles and bones from which most patients complain and help the kidneys flush out the poisons.

To relieve nasal obstructions and excessive discharge from the nose, nothing is better than such a mild, soothing, antiseptic wash as Dr. Sage's Catarrh Remedy. It will give great relief. Employed as a gargle, in same strength as made up for use in the nose, and as hot as can be borne, it quickly arrests soreness and dryness in the throat.

Influenza weakens the patient's resistance to disease, so that there is danger of bronchitis and pneumonia developing. To combat this tendency and fortify the patient's strength, insist that he keep in bed at least two days. Probably nothing will at this stage hasten the recovery and strengthen the patient more than an iron-tonic tablet called Anuric Tablets. Dr. Pierce's Golden Medical Discovery, which has been used by thousands in the past two generations,

COULDN'T HUNT ROBBITS SO HE HUNTED HUMS

Licking County Soldier, "Over There" Regrets That He Misses Annual Chase on Usuals. J. R. Croy, Co. A, 325th Machine gun battalion A. E. F., wrote his uncle Marion Boudie that while he couldn't come to hunt on his place this year he could be hunting just the same, only a different kind of game. His letter written October 17th reads:

"I arrived safe and sound and feeling fine and hope this finds everybody feeling the same. I don't suppose I will get back to hunt on your place this year, as I will be hunting another kind of game by that time. I would like to see George but there is no chance of finding him unless it is by accident, I ought to have gotten word from him by this time, but maybe he hasn't had time to do much writing. I don't think it will be long until we are all home for this thing is about over, for they sure are driving them back and they are about all in. so it won't be long until we are back in the states. I am having a nice time, plenty to eat, nice place to sleep and feeling the country. Some fine scenery over here: chestnuts and English walnuts are plentiful over here and the chestnuts are the largest I ever saw. Well this is my birthday so I guess I will have to celebrate and we can do it over here too, they can make fine wine. I can get along with their money but I can't talk to them, never will learn to."

YOUR SICK CHILD IS CONSTIPATED! LOOK AT TONGUE

Hurry, Mother! Remove poisons from little stomach, liver, bowels.

Give "California Syrup of Figs" if cross, bilious or feverish.

No matter what ails your child, a gentle, thorough laxative should always be the first treatment given.

If your little one is out-of-sorts, half-sick, isn't resting, eating and acting naturally—look! Mother! see if tongue is coated. This is a sure sign that the little stomach, liver and bowels are clogged with waste. When cross, irritable, feverish, stomach sour, breath bad or has stomachache, diarrhoea, sore throat, full of cold, give a teaspoonful of "California Syrup of Figs," and in a few hours all the constipated poison, undigested food and sour bile gently moves out of the little bowels without griping, and you have a well, playful child again.

Mother can rest easy after giving this harmless "fruit laxative," because it never fails to cleanse the little one's liver and bowels and sweeten the stomach, and they, dear little love its pleasant taste. Full directions for babies, children of all ages and for grown-ups printed on each bottle.

Beware of counterfeit fig syrups. Ask your druggist for bottle of "California Syrup of Figs," then see that it is made by the "California Fig Syrup Company."

HER DAUGHTER WAS SAVED FROM OPERATION

Mrs. Wells of Petersburg Tells How.

Petersburg, Va.—"For two years my daughter suffered from a weakness and pains in her right side; at times she was so bad she could not do any work. For two years she was attended by the best physicians here, and both agreed that she would have to be operated on. I suggested Lydia E. Pinkham's Vegetable Compound, and at first she refused to take it, but finally consented. From the very beginning it helped her, and now she is entirely well, and telling everybody how much good it has done her."—Mrs. W. D. WELLS, 225 North Adams Street, Petersburg, Va.

If every girl who suffers as Miss Wells did, or from irregularities, painful periods, backache, dizziness, dragging down pains, inflammation or ulceration would only give this famous root and herb remedy a trial they would soon find relief from such suffering.

200 ATTEND ELK PEACE BANQUET

Music and Speeches Feature Event Marking Signing of Armistice—Dr. Baker is Toastmaster.

The local lodge of Elks last evening celebrated the recent signing of the armistice bringing about peace with victory, by a delectable turkey dinner, served in the lodge room at 6 o'clock. More than 200 participated and the event was one of the most enjoyable of the many which has been given by the local order. Music was furnished throughout the evening by the Misses Edna Beck, Jeanette Crotti and Ruth Culp, cabinet entertainers of Columbus, and was one of the pleasing features of the program. The guests were seated at long tables in the new banquet hall of the club room, the officers and speakers of the evening occupying a table at the head of the hall, the room being prettily decorated with the national colors. As the guests were seated at table fancy carnival hats were handed them.

After the serving of the dinner and cigarettes had been passed, Exalted Ruler Harry D. Hale in a few brief remarks introduced Dr. H. H. Baker as the toastmaster of the evening. Dr. Baker kept things moving at a lively rate and assisted in keeping everybody in a happy humor around the banquet board.

During the course of the evening the following men spoke on the subject assigned them: "Why I Joined," Hon. E. G. Smythe; "Good Fellowship," Attorney F. A. Bolton; "The Elk in War," Attorney F. S. Scott; "Our Membership," J. R. Fitzgibbon; Selected readings, J. R. Cooper; patriotic address, Sergeant Webb of the American aviation corps, while flying in France; "Assignments," Exalted Ruler Hale. All of the addresses were thoroughly enjoyed but that of Sergeant Webb deserves special mention for it was eloquent as well as a graphic word picture of the terrible events which happened on the battle fronts of France and Belgium.

Patriotic songs were rendered by

Taking Epsom Salts is like drinking lemonade now

Instead of asking for the common Epsom Salts, ask for Epsom Salts hereafter. You will get a big package for only 15 cents. Epsom Salts look and act exactly like Epsom Salts, because it is Epsom Salts combined with fruit derivatives thus making a sparkling, effervescent, lemonade-like drink for the liver and bowels. Take a tablespoonful of this delicious salt in a glass of cold water when you feel bilious, sick, headachy or constipated and get the quick and splendid action of a dose of Epsom Salts without the horrible taste.

Epsom Salts will replace the old Epsom Salts, Rochelle Salts, Sodium Phosphate and Cathartic Pills in every home, say local druggists.

The young women entertainers during the progress of the dinner and speaking and Miss Crotti proved a capable artist as a soft shoe dancer. The dinner adjourned with the singing of "The Star Spangled Banner."

ANTI-SALOON LEAGUE WILL WORK ABROAD

Missionary Work for Temperance to Be Undertaken in Foreign Lands by U. S. Organizations.

[ASSOCIATED PRESS TELEGRAM] Columbus, Nov. 22.—Missionary work for the temperance cause in foreign countries will be conducted by the Anti-Saloon League of America from now on until such time as it will be possible to formulate a league of nations for world-wide prohibition. It was stated by dry leaders participating in the world-wide prohibition conference here today. The league will co-operate with dry organizations already established in foreign countries and headquarters will be established in many others, it was stated.

Invitations to co-operate have been extended already by the prohibition organizations of India, Mexico, Scotland and Bulgaria. Appealing in behalf of Mexico the Rev. C. A. Frausto of Saltillo declared that Mexico's chief fear is that the American saloon keepers will flock to Mexico when the United States goes dry. Bishop W. F. Anderson of Cincinnati will speak at the conference today.

READ THIS ABOUT INFLUENZA

A Slight Chest Cold Often Leads to Deadly Pneumonia.

When you catch cold during this epidemic don't take any chances. Influenza starts with a cold, so send for your doctor at once.

In the meantime protect your throat and chest and ward off inflammation and soreness by rubbing on Mustarine. It's better than mustard plaster, will not blister and stops all aches and pains quicker than anything you can buy.

Tens of thousands use it for sore throat, chest colds, pleurisy, tonsillitis and bronchitis—it's wonderful.

STOPS PAIN MUSTARINE CANNOT BLISTER

Fine for Rheumatism, Lumbago, Sciatica and All Muscular Soreness

Andy Huston of Logan Township, Pennsylvania, Says: "Three Applications of Wonderful 20th Century Liniment Entirely Cured Me."

"Had Rheumatism so badly in hip and knee could scarcely do anything and suffered all kinds of pain and misery, but with only three applications entirely cured myself and am able to work in comfort every day."
20th Century Liniment never disappoints and will neither burn nor blister. It brings quick relief from Neuralgia, Rheumatism, Pains and Twinges, Sprains and all soreness of nerves and muscles. It contains such well-known remedies as camphor, menthol, iodine and many other ingredients prescribed by the highest medical authorities that bring soothing relief and real joy to tired, aching muscles.

Step into T. J. Evans' drug store or stop on your way home at any drugstore, and get a bottle. If you don't find quick relief, return the bottle and get your money back.

The great nerve tonic—the famous Wendell's Ambition Pills—that will give vigor, vim and vitality into nervous tired out, all in, despondent people in a few days in many instances. Anyone can buy a box for only 50 cents, and T. J. Evans is authorized by the maker to refund the purchase price if anyone is dissatisfied with the first box purchased.

Thousands praise them for general debility, nervous prostration, mental depression and all nervous troubles caused by over-indulgence in alcohol, tobacco, or overwork of any kind. For any affliction of the nervous system Wendell's Ambition Pills are unsurpassed, at this for hysteria, trembling and neuritis they are simply splendid. Fifty cents at T. J. Evans' and dealers everywhere.—Adv.

PILE SUFFERERS! CLEVER OHIO CHEMIST SAYS THIS GREAT PRESCRIPTION TAKEN INTERNALLY HAS NEVER FAILED

Even chronic cases of 20 to 30 years standing, with profuse bleeding, have been completely cured in from three to ten days.

No discovery of recent years in the field of medicine has caused such a stir amongst the medical profession as the recent discovery that piles can be successfully treated and cured at home by a wonderful prescription known to druggists as Miro Pile Remedy.

It has been proved that so-called external remedies applied or inserted into the rectum cannot cure piles and at the best only give temporary relief. This is also true of surgical operations which simply remove them after formation, but in no wise acts on the source of the trouble.

OXIDAZE

FOR COUGHS, COLDS, BRONCHIAL ASTHMA

Years of study and observation convinced him it would safely, quickly and surely stop a bad cough and give instant relief in Bronchial Asthma and Croup.

WHEN TONGUE IS COATED DRINK CELERY KING

Take it yourself and give it to the children for it's a purely vegetable laxative and acts promptly on the bowels and never causes the least distress.

It puts you right over night and when you catch cold and become feverish you are going to bed.

For sick headache, biliousness, dizziness, disordered stomach and sluggish liver there is nothing that will do the work so well. Every druggist has it. A generous package costs only a few cents.

The author of this amazing discovery deserves all sufferers to know that he does not want a cent of anyone's money unless Miro Pile Remedy decisively conquers even in the worst cases and has instructed druggists all over the country to guarantee it in every case of blind, bleeding or protruding piles.

IMPORTANT: What is known as itching piles are not piles in the true sense of the word, although this condition may accompany a true case of piles. In this condition Miro Pile Remedy has been prepared as in such cases it is not necessary to take the internal prescription.

EMPLOYMENT SERVICE GIVES SOLDIERS WORK

Plans to Find Jobs at Home for Returned Fighting Men Community Board Help.

Columbus, O., Nov. 22.—Find jobs for released war workers in the community in which they have been working.

That was the general policy of the U. S. Employment service which is taking the problem of placing war workers and demobilized soldiers in peace work as rapidly as they are released.

Thousands of war workers were attracted from their original homes to war plants. It is recognized that these will, of course, seek to return home. The service will direct them to the U. S. employment offices in their home communities which have been instructed to take care of them as promptly as possible.

Federal community labor boards also have been instructed to assist in placing war workers in jobs in the community where they have been working.

IF THE WORLD KNEW THIS

Much Suffering Would Stop—Tells of a Home-Mixed Medicine for Colds, Coughs, Bronchitis, Etc.

The Blackburn Products Co. of Pease, N. H., has been mixing some more of the Metho-Laxene in syrup this morning I could not help but wonder if you really knew what a wonderful cold remedy it is, even if you do put it up.

Last fall we were really worried about my husband, as he had tried so many remedies, and the doctor did not help him at all, when one day he happened to read an ad. of your Metho-Laxene and he said: "I will give it a trial, then give up, I guess, if it doesn't help me."

We have gotten better, and he began to feel easier right away, and long before his first bottle was gone he was all over his terrible cough, and by taking a little when feeling hoarse, just a little, we both have wanted out every bit of colds and coughs since, until Monday of this week he got his feet so wet and by night he coughed again quite badly, but this morning he was O. K. again.

This is 300 n. m. so you see how quickly it worked.

We have gotten ever so many others to use it by giving them a sample of ours.

This is just a line to tell you how grateful we both are to you and your remedy.

MRS. GEORGE E. GATIS, 334 N. Hickory Street, Owosso, Mich.

NOTE—Metho-Laxene is sold by all good druggists everywhere. A 24-oz. bottle of the concentrated essence makes a full pint of the most effective cold and cough medicine. Directions and guarantee of satisfaction accompany each bottle.

Mutagens—"There seems to be a great rush among people with German-sounding names to change them." Pigskins—"Yes, even the Kaiser is now just plain Paul Hohenoller."

CONVALESCENCE

"Getting Better" is the most serious time for those who have had grippe, influenza or other severe sickness. Something more than ordinary good food is required to build you up. A tonic is needed, and for this purpose doctors usually prescribe some form of Iron, Nux Vomica, Gentian and Zinc Phosphide.

The Iron especially is very essential but in most preparations it causes constipation. In Dr. Chase's Blood and Nerve Tablets this is overcome however, by the addition of Aloin to the other tonic remedies.

As these tablets contain all of these essential tonics in any easily assimilated form they make a pleasant safe and sure health restorative and of inestimable value at this time.

Weight yourself before taking and watch the rapid progress of returning health.

Dr. Chase's Blood and Nerve Tablets may be had at most any druggists at sixty cents a box. Special strength ninety cents.

The exports from Matamoros, Mexico, to the United States for the first half of the calendar year, 1918 show an increase of \$127,261 over last year.

Nature's Remedy

MR. TONGUE, "I can now feel better."

W. A. EVANS, DRUGGIST

TRY THIS FOR LIVER AND BOWELS

Brew it at home yourself, save money and feel better right away.

If you want a splendid, economical remedy for constipation, sick headache, dizziness and torpid liver, get a small package of Dr. Carter's R. and B. Tonic and brew a cup of your own brewing whenever you need it.

This old reliable vegetable remedy has stood the test of time and is now more popular than ever.

Keep a package in the house all the time and brew a cupful when you feel out of sorts, feverish or bilious. It always helps promptly—and be kind and gentle, is just as good for children as for grownups.

TO RELIEVE CATARRHAL DEAFNESS AND HEAD NOISES

If you have Catarrhal Deafness or are hard of hearing or have head noises go to your druggist and get 1 ounce of Parment double strength, and add to it 14 pint of hot water and a little granulated sugar. Take one tea spoonful four times a day.

This will often bring quick relief from the distressing head noises, and nostrils should open, breathing come easier and the mucous stop dropping into the throat. It is easy to prepare, costs little and is pleasant to take. Anyone who has Catarrhal Deafness or head noises should give this prescription a trial.

SAYS HIS PRESCRIPTION HAS POWERFUL INFLUENCE OVER RHEUMATISM

Unwarranted Tense Druggists Not to Take a Cent of Anyone's Money Unless Rheumatism Completely Banished All Rheumatic Pains and Twinges.

Mr. James H. Allen suffered for years with rheumatism. Many times this terrible disease left him helpless and unable to work.

He finally decided, after years of ceaseless study, that no other way could be found to cure his rheumatism until the accumulated impurities, commonly called uric acid deposits, were dissolved in the joints and muscles and expelled from the body.

With this idea in mind he consulted physicians, made experiments and finally compounded a prescription that quickly and completely banished every sign and symptom of rheumatism from his system.

He freely gave his discovery to others who took it, with what might be called marvelous success. After years of urging he decided to let sufferers everywhere know about his discovery through the newspapers. Evans' Drug Store and Mykrantz Co. can supply you.

Virgie D. Kerns, whose place of residence is unknown, will take notice that the plaintiff, Robert J. Kerns, has filed his petition in the Common Pleas court of Licking county, Ohio, praying to be divorced from said Virgie D. Kerns, on the grounds of gross neglect of duty and three years willful absence. Said petition will be for hearing after six weeks from the 25th day of October, 1919.

ROBERT J. KERNS, Plaintiff.

CATARRHAL TROUBLES BANISHED FOREVER

Especially of the Nose and Throat. Here is a new treatment that no more of how many things you may have tried or however stubborn your case, it does the work. You don't have to wait days and weeks to see if it will help you. You will feel the effects at once. Conditions of long-standing are relieved in a very short time.

Simply so to your druggist and ask for a package of Forkola and refuse all substitutes. Forkola quickly heals and soothes the swollen, inflamed membranes, stops the discharge and opens up the clogged nose and air passages in a truly wonderful way. Thousands of sufferers claim that Forkola has ended their catarrh forever.

No word has been received from Jack Hughes since he sailed about two months ago. We hope soon, now to get word from him. He has probably written but the mail seems slow getting here.

W. S. S. TO SUPPORT VICTORS

Government Needs Money to Continue Maintenance of Soldiers.

Columbus, O.—(Special.)—Through the Ohio War Savings Committee, the government is impressing on the people of this state that its soldiers and sailors must be supported as generously in victory as they were in battle.

Military authorities are agreed that it will take upwards of a year or more to muster out our armies. In the meantime, the "rear supports"—those at home—must continue to buy U. S. securities. Money must be invested in War Savings Stamps to provide the government with funds necessary to furnish clothing, subsistence and the educational advantages it intends to give the fighting men.

War Savings Committees in every county of the state will continue their activities. Intensified drives will be conducted in those counties not up to the apportionment given by the Treasury Department. In Ohio every effort will be made to furnish the government with the funds needed to maintain the Buckeye boys in the military.

"People of this state must not forget their obligation to these men," the Ohio War Savings Committee has bulletined its county chairmen.

TOMORROW WILL BE OPENING DAY OF ANOTHER FAMOUS SHOE STORE

\$3.50 to \$6.00

Tomorrow morning we shall present to the public a value in shoes so much greater than you ever have known at \$3.50 to \$6.00 that to tell the simple truth about it may sound like an exaggeration.

The simple truth is that nearly four million men, women and boys in the United States wear THE NEWARK SHOE—rather a smashing tribute to the public's judgment. And when you see THE NEWARK SHOE in nearly 300 styles in which it is made; when you examine a pair and see its excellent workmanship and finish—you will say that it has EARNED its great success and DESERVES the nation-wide sale which it enjoys.

If every man and woman in NEWARK realizes what magnificent styles await them here tomorrow at \$3.50 to \$6.00—you will have your troubles to get inside of our store to buy a pair.

On every pair of these superlatively smart NEWARK SHOES you save "ONE DOLLAR AND FIFTY CENTS AND MORE." And this is brought about by the great MANUFACTURING and vast scientific SELLING organization in back of this nationally famous shoe.

Come to our opening tomorrow:

Enjoy the lavish display of new Fall models we have prepared—and you will come away satisfied that NEWARK may well be proud of its new-comer.

Remember each visitor or customer will receive a fine useful souvenir.

What Determines Meat and Live-Stock Prices?

Some stock men still think that Swift & Company—and other big packers—can pay as little for live-stock as they wish.

Some consumers are still led to believe that the packers can charge as much for dressed meat as they wish.

This is not true. These prices are fixed by a law of human nature as old as human nature itself—the law of supply and demand.

When more people want meat than there is meat to be had, the scramble along the line to get it for them sends prices up. When there is more meat than there are people who want it, the scramble all along the line to get rid of it within a few days, while it is still fresh, sends prices down.

When prices of meat go up, Swift & Company not only can pay the producer more, but has to pay him more, or some other packer will.

Similarly, when prices recede all down the line Swift & Company cannot continue to pay the producer the same prices as before, and still remain in the packing business.

All the packer can do is to keep the expense of turning stock into meat at a minimum, so that the consumer can get as much as possible for his money, and the producer as much as possible for his live-stock.

Thanks to its splendid plants, modern methods, branch houses, car routes, fleet of refrigerator cars, experience and organization, Swift & Company is able to pay for live cattle 90 per cent of what it receives for beef and by-products, and to cover expense of production and distribution, as well as its profit (a small fraction of a cent per pound), out of the other 10 per cent.

Swift & Company, U. S. A.

CATTLE FINISHING A PROFITABLE AND MUCH-NEEDED INDUSTRY

Enormous Yields of Alfalfa Insure Plenty of Forage

He who makes two blades of grass to grow where but one has grown before, is a benefactor to mankind. So, too, is the man who purchases under-developed cattle and brings them to maturity on pasture that would otherwise go to waste. This is what farmers in Western Canada are doing. Their reward is threefold: they earn the gratitude of millions, a sense of satisfaction from patriotic duty well done and a nice financial profit.

Farmers who went in for cattle business yesterday are reaping large profits today; those who are engaged in this industry today will be tomorrow's winners. The enormous demands of the past four years have depleted Europe and drained this continent. War's end will not end this demand. New herds must be built up and this will consume years. The high prices now being paid for cattle are bound to be maintained and far-sighted men are buying new stocks with the intention of holding them.

In no other country can this industry be fostered to better advantage than in Western Canada. There may be found vast areas of pasture lands practically unused. There the most nutritious fodder crops can be grown cheaply and in quantities sufficient to support many times the number of cattle now supported.

For a number of years the finishing of cattle has had an important part in the programs of a few farmers. Their success has incited others to take up this phase of cattle industry and the number of young cattle purchased by farmers at the Winnipeg Union Stock Yards in 1917 was nearly four times that bought in 1915. The following instance will explain the increasing demand for cattle to finish.

In March last, a Manitoba farmer purchased 25 head of cattle weighing on an average of 1,040 lbs. at \$10.10 per cwt. Six months later these steers went over the scales at an average of 1,442½ lbs. and fetched \$14.60 per cwt. These animals had received no special care. When taken to the farm they were allowed to eat from the straw stacks until they could be turned onto grass. They were practically grass-fed steers. The gross profit was \$105.56 per head. Total expenses, including commissions, freight, care and feed, was less than \$10 per head, so that the net profit was almost 100%. This is not unusual; other farmers have done even better.

NEW SHOE STORE
OPENS TOMORROW

The Newark Shoe Store Co., of Bal-
 timore, Md., have opened a branch
 store at 3 South Third street, this
 city, and are now ready to serve the
 public with a full and complete line of
 stylish up-to-the-minute footwear at a
 price range from \$2.50 to \$6.00. The
 doors of the new store were opened to
 the public the middle of this week, but
 the grand opening will be tomorrow—
 Saturday—when bargains of unusual
 value will be offered. The store has
 been remodelled and refurnished through-
 out and converted into one of the most
 attractive salesrooms in the city. A
 cordial invitation is given to visit the
 new store, Saturday, and inspect the
 stocks of men's, women's, boys', misses' and
 children's shoes and learn prices.
 The Newark Shoe Store Co. operate a
 chain of 340 retail stores located in
 all parts of the United States.
 This large number of stores enables
 them to buy shoes in large quantities
 and at lowest prices, and their custom-
 ers get the benefit in the low selling
 prices they name.
 Ernest L. Noethlich, of this city, has
 been made manager of the new store
 and will look to the best interests of its
 patrons. Mr. Noethlich has had 15
 years' experience in the shoe business
 and is well qualified for the position of
 manager. He has been in government
 service until a few weeks ago. Previous
 to entering army service Mr. Noethlich
 was manager of the local branch of the
 Rosenthal shoe store.

RAILROADS TO GIVE
JOB TO OLD MEN

(ASSOCIATED PRESS TELEGRAM)
 New York, Nov. 22.—A majority of
 the nation's railroads plan to restore to
 employees who entered military and
 naval service the seniority rights which
 they sacrificed when they left the roads
 employment, according to an order by
 the United States railroad administra-
 tion, made public here today. In so far
 as is practicable, preference in re-em-
 ployment and reinstatement would be
 given to soldiers and sailors as quickly
 as they were mustered out of federal
 service, the order said.

Issued under the signature of W. G.
 McAdoo, director general of railroads,
 the order says that the following general
 principles will govern:
 "A.—In the case an employee having
 established seniority rights so far as
 practicable, and where the employee is
 physically qualified, he will be restored to
 such seniority rights.
 "B.—In the case of employees who do
 not have seniority rights under exist-
 ing practices, a consistent effort will be
 made to provide for employment for them
 when mustered out of military service."

OHIO KNIGHTS-TEMPLAR
ELECT NEW OFFICERS

(ASSOCIATED PRESS TELEGRAM)

 commander is Michael J. J. Venable of
 Medina. Jacob H. Brownell of Cin-
 cinnati, is deputy grand commander.
 Thomas J. Jones, Cleveland, grand gen-
 eralissimo. Daniel C. Jones, Toledo,
 grand captain general; Oscar Schoed-
 inger, Columbus, grand senior warden.
 Rev. George P. Atwater of Akron, was
 reappointed grand prelate; Henry
 Schaeffer of Toledo, was reappointed
 grand treasurer, and John Nelson Bell
 of Dayton, was reappointed grand re-
 corder, to begin his thirty third term in
 that office. Riley W. Wortman of De-
 fiance, was reappointed grand captain
 of the guard; Charles H. Voegelé of
 Mansfield, is grand sword-bearer; Edwin
 G. Craun of Tiffin, is grand standard-

W. S. S. PROVIDE FOR
DAYS OF UNCERTAINTY

Insurance Against Possible Pe-
 riod of Distress Is Offered.

Columbus, O., (Special).—These
 are days of large earnings, good busi-
 ness and economic certainty. Provide
 for a possible period when these con-
 ditions may change.

This message has been transmitted
 by the Ohio War Savings Committee
 to its chairman over the state as one
 of the many reasons why War Sav-
 ings Stamps should be purchased by
 the public in ever-increasing amounts.

The State War Savings Commit-
 tee's bulletin continues:
 "Labor is prosperous today; the
 country is in the midst of prosperity.
 "In War Savings Stamps the govern-
 ment offers its people the sound-
 est possible investment at good re-
 turn. Insurance against days of un-
 certain future can be secured by pur-
 chase of these securities.
 "In no better way can the person of
 moderate income so well serve his
 own interests and at the same time
 render a genuine help to his country
 as by the purchase of War Savings
 Stamps."

Daily Thought.
 Shut out this purse strings always
 against painted distress.—Charles

PRIEST IS DEAD **OF PNEUMONIA**

Father Spangler, Former
Assistant Pastor at St.
Francis de Sales Dies In
Wheeling Hospital.

Rev. Father Aloysius H. Spangler, 30,
 former assistant pastor at St. Francis
 de Sales church, died in a Wheeling
 hospital early Thursday morning from
 pneumonia.

Father Spangler was born in Burk-
 hart, Monroe county, June 16, 1888,
 and with his parents, Mr. and Mrs. Francis
 Spangler, moved to Zanesville. He at-
 tended the St. Nicholas school, and after
 graduation entered St. Vincent's college
 at Seaford, Pa., and later completed his
 studies at Mt. St. Mary's seminary at
 Cincinnati. He was ordained at St.
 Joseph's cathedral in Columbus by
 Bishop Hartley, May 31, 1916, and cele-
 brated his first mass at St. Nicholas
 church, June 4, 1916. He was assistant
 to Rev. Father Powers at Steubenville,
 and then to Rev. Father B. M. O'Boylan
 at the St. Francis de Sales parish, New-
 ark.

From Newark, he was assigned to the
 pastorate at Neffs, Belmont county.
 Deeply impressive services will mark
 the funeral rites at the St. Nicholas
 Catholic church, Zanesville, at 9 o'clock
 Saturday morning. A requiem requiem
 high mass will be chanted by Rev.
 Father A. C. Baar, assistant pastor of
 the St. Nicholas church. The officers of
 the mass have not been chosen but the
 pastor, Rev. Father A. C. Baar, will
 deliver the funeral oration. Rt.
 Rev. J. J. Hartley, bishop of the Colum-
 bus diocese, will be present for the ser-
 vices and will officiate at the blessing
 and also at the restoration of the office
 for the dead. This service is announced
 for 8:30 o'clock and will immediately
 precede the requiem mass. Because of
 Father Spangler's wide acquaintance
 over the diocese it is expected that a
 large number of priests from other
 cities will attend the funeral.

Beginning at 3 o'clock Friday after-
 noon the body will lie in state at the
 St. Nicholas church with members of
 the Holy Name society acting as guard-
 of-honor. Father Spangler was a member
 of the St. Nicholas Alumni associa-
 tion and of the Holy Name society.

GRANVILLE

(Special to the Advocate.)
 Granville, Nov. 22.—A notable mid-
 week event in Granville was the visit
 of Dr. Frank Grandstaff of Pittsburgh
 to the members of the Presbyterian
 church at a get-together meeting and
 supper held in the social rooms of the
 church last evening, followed by a
 preaching service in the auditorium at
 7 o'clock, at which Dr. Grandstaff de-
 livered an address. The Ladies Aid
 furnished the supper which was ap-
 petizing and amply abundant for the
 throngs who sat at successive tables.
 Dr. Grandstaff, who was accompanied
 from Newark by Mr. and Mrs. Oriei C.
 Jones, was guest of honor, and re-
 ceived a warm welcome from all. The
 audience which greeted the eminent
 preacher was large and appreciative.
 Among those present being several
 Newark people. Dr. Grandstaff preaches
 the Gospel and directs his message
 straight to the heart of every hearer.
 He is eloquent and forceful and sincere
 and rises at times to the heights of
 impassioned oratory.
 It is announced that the students
 of the army are to remain in barracks during
 the Thanksgiving recess. The boys
 are to have a taste of Granville hos-
 pitality on that day, a hospitality that
 never yet has been found lacking either
 in quality or quantity. The girls are
 given a vacation until Monday
 morning.
 Anne W. P. Farnam was the guest of
 Mrs. L. S. Jones last evening in a ma-
 jor trip to Columbus for the Metzer-
 auer concert in Memorial hall.
 The county W. S. S. committee has
 awarded bronze medals to Postmaster
 John C. Jones, S. C. Jones, C. B.
 Slack and W. H. Kussmaul for their
 valuable work in that department of
 service. At a meeting of this commit-
 tee held recently a letter was read

HURRY AWAY PIMPLES, RASHES WITH POSLAM

Don't let them remain to blemish and annoy any longer than it takes Poslam to heal them. And Poslam is best equipped to do the work because its healing powers are concentrated. Apply Poslam at night—and leave it on in the daytime, too, when convenient. It acts quickly. You can soon see benefits. Poslam is harmless. So effective is Poslam that a little of it will cover a large surface. It is its QUALITY, not the quantity of it, that does the work.

PATRIOTISM NOW NEEDED

The great test of love of liberty is at hand. If we want the world to be happy and secure, we must show it now by systematic support of our good old flag.

We must support the men abroad; we must support the tremendous reconstruction problems. Billions must yet be raised. Every time we buy a War Savings Stamp we prove our faith in government of the people, by the people, and help extend it over the world.

At the same time we are bettering ourselves, helping our own financial security, putting savings out at 4.27 per cent interest and strengthening our good citizenship.

We have bought for victory. Now buy for security.

NO MORE FURLOUGHS FOR WORK ON FARMS

(ASSOCIATED PRESS TELEGRAM) Camp Sherman, Chillicothe, Nov. 22.—The granting of farm and industrial furloughs will be discontinued at once, following the receipt of orders to this effect by camp authorities from the war department. A number of applications requesting such furloughs have been ordered stopped to avoid confusion in the discharge of men from the camp. It is pointed out that should these furloughs be granted and the men later be found eligible to discharge they would be compelled to return to camp for the procedure. Discharged soldiers will be enabled, by presenting a certificate of discharge, to buy a railroad ticket at two-thirds the cost of the regular mileage rates, it is announced. The government also allows a soldier transportation from the place of discharge to the place of enlistment or induction. The contributions to the United War Work campaign from conscientious objectors in the camp amounts to \$72.50.

ARTHUR RYDER IS SURE LITTLE SON WILL BE CURED

Railroad Shop Man Tells How Nervous Overcomes Lad's Extreme Nervousness.

Mr. Ryder's extraordinary signed statement is but a few days old. It is too valuable to pass by.

"My son when he was three years old began to have nervous convulsions, attended with a high fever and making it necessary to call a physician. After these spells he was so nervous he could hardly talk and could not rest at night. At first he would have one of these spells every two or three months. Finally they increased to two a month.

"In February, 1918, I saw Nerv-Worth advertised and decided to try it. It is nine months since he began taking it. He is now six years old; is getting in better condition every way and I feel confident Nerv-Worth is going to cure him.

CANADIAN BANDITS KILL TWO OFFICERS

Elite Pursuers Who Prepare to Dynamite Stronghold in Saskatchewan Wilderness—Pursuit Continues.

(ASSOCIATED PRESS TELEGRAM) Prince Albert, Sask., Nov. 22.—Pursuit of two bandits, wanted for murder who yesterday escaped from a dugout and tunnel near Steep creek, where it was believed they had been trapped, was commenced anew at dawn today by mounted police and a posse of citizens. The bandits, Victor X. Carmel and Jean St. Germain, are alleged to have killed Deputy Sheriff James McKay, 1st Friday, and Corporal Charles Horsley yesterday. Another member of the sheriff's posse, James Suger, has been missing for several days and it is believed he has been shot.

The desperadoes were traced to the dugout on the shores of the Saskatchewan river and preparations were being made to use dynamite when it was discovered they had alluded their pursuers. The tunnel was found to contain a quantity of whiskey, a still, and provisions. It is believed the men have fled to another dugout further down the river, somewhere between Steep Creek and Prince Albert. This vast stretch of country is covered with heavy timber and thick undergrowth and there is every opportunity for shelter for an indefinite period, provided food can be obtained.

NO NEWS THIS WEEK IS GOOD NEWS--COX

Governor Learns That Casualties During War Will Be Reported by End of This Week.

(ASSOCIATED PRESS TELEGRAM) Columbus, Nov. 22.—If you don't hear bad news about your soldier son this week you may feel reasonably well assured that he is safe.

This announcement was made by Governor Cox after a long distance telephone conversation with Secretary of War Baker. Baker has told Cox the war department is ordered hastening reports of casualties. He said he was sure the list would be completed by the end of this week.

Deaths from wounds and injuries, and deaths from accidents, of course, will continue.

ST. MARYS COLLEGE CLOSED BY EPIDEMIC

(ASSOCIATED PRESS TELEGRAM) Dayton, Nov. 22.—The presence of 29 cases of influenza at St. Mary's college here, resulted today in the closing down of the institution upon the advice and order of health commissioner. The 700 students will be released from their studies until December 2, those coming from out of town being sent home. The public schools here are not affected by the health commissioner's order.

AKRON WOMAN REGAINS HEALTH

Tanlac Promptly Relieved Her of Stomach and Nervous Trouble.

"My health has improved in every way since taking Tanlac," says Mrs. Mae Kane, who lives at 61 Forest street, Akron. She says:

"I had a bad case of nerve trouble. I felt so ill at times that I was almost afraid to walk in the street alone for fear I might run into someone. I was so dizzy.

"At times I had specks before my eyes and a smothered feeling, and my heart would beat wildly. I could not enjoy food and had little or no appetite. I seldom slept soundly and would feel nervous and irritable after a wakeful night. I had frequent headaches, and felt weak and tired continually.

"My food often caused me to suffer from gas and bloating.

"I only took one bottle of Tanlac, but am feeling well. The dizziness and nervousness has now gone and I no longer have trouble with my stomach.

"If you are in need of a good remedy for stomach ailments, or feel nervous and irritable, get TANLAC today. It will do for you what it has done for thousands of others.

Tanlac may be obtained in Newark at Erman's Arcade Drug store. Tanlac may also be procured at the Evans Pharmacy (Wardens Hotel block, east side of square, Newark), and the Hebron Drug store, Hebron, O.—(Adv.)
